weight 62 kg / 137 lbs
floor stand optional (required for in-line operation)

PRO SERIES MULTI MODULAR SYSTEM - The Pro Series units can operate stand alone or in in-line configuration with up to 4 modules. The EMBOSSER 1000 can be connected to: MULTIFEEDER 6000, THERMAL 1000/2000, INSERTER 3000. The modular concept of the hardware with the easy-to-use MultiCard 2006 software makes the PRO SERIES a unique scalable system for complete card personalization.

COMPACT & CONVENIENT - With its desktop dimensions and heavy duty performance, the Embosser 1000 offers an all-in-one solution in professional card personalization at a convenient price.

FAST - The productivity is enhanced by a MSP (Multi Smart Processing) system. As a result of this, the E1000 can process up to 3 cards simultaneously.

VERSATILE - The E1000 belongs to a tested CIM product range and can manage embossing, infill and tipping, magnetic stripe and / or contact and contactless smart card encoding into one single card flow. Furthermore, the EMBOSSER 1000 can be configured with special embossing characters to personalize international credit cards, such as VISA and MasterCard (also with country specific characters), and perform dual infill personalization of the front and back simultaneously.
