

Elliott Clinic Manager

A patient enrollment and medication management solution designed to work with the Emergency Event Manager and Asset Manager Mobile Solutions™.

The Perfect Tool for Health Departments

The Elliott Clinic Manager Solution (ECMS) is a software solution designed to provide healthcare related emergency first responders the ability to enroll patients, collect medical questionnaires and dispense medication during an emergency response when integrated with Elliott's Emergency Event Manager and Asset Manager Mobile Solutions™. Health Departments large and small are able to track resources and medication from the warehouse to the Point of Distribution to the patient using one complete accountability and identification solution.

Patients are quickly enrolled with the simple swipe of a driver's license and the population of all their information into the Elliott Clinic Manager software. From there, authorized personnel are able to manage the patient's information, issue medicine and supplies to the patient and create a report on all the necessary information regarding the patient and the aid provided to them and their family.

EEMS Features

- > **Enroll patients on-site.**
- > **Provide a dynamic medical questionnaire.**
- > **Produce Face Sheets with a barcode.**
- > **Group family members.**
- > **Dispense medication and supplies.**
- > **Prevent patients from receiving duplicate medication.**
- > **Manage medication by lot, NDC #, unique ID, and expiration date.**
- > **Track patients throughout an event by scanning their Face Sheet, wristband, or credentials.**

Companion Products

The Accountability Manager software can be integrated with other hardware and software products to enhance the solution and build a more comprehensive system resulting in greater effectiveness and success.

Mobile Command Cases

The Mobile Command Case is a turn-key, integrated solution packaged as a compact, self contained workstation. This case is designed to quickly be transported and setup with little to no preparation.

- Available as a standard or mini command case.
- A mobile, compact design makes it easy to transport and store each case for quick access.
- Protected by a durable, water tight mobile case.
- Includes a wireless router that enables multiple PCs with the web based module or Elliott Clinic Manager to connect to it allowing many workstations at one clinic.

Easily transport to multiple locations with little to no preparation!

Data Server

- Remotely synchronize your Command Center with the Data Server.
- Doubles as a backup for data recovery.
- Synchronize and share data with many Command Centers.
- Tailor options of access to other Command Centers.

Mobile Tracking Devices

- Track personnel and patients away from the command workstation.
- Wirelessly connect to the command workstation by transmitting data in real-time.
- Manage multiple entry and exit points at a site.
- Add multiple applications to each device.
- Search a personnel database.
- Read magstripe or barcoded Prox/MOCA/Smart Card IDs using a rugged, weather resistant mounted access box.

Emergency Event Manager

- Instantly issue positive IDs on-site.
- Track & manage personnel and volunteer data.
- Know who's on- and off-site.
- Choose from multiple card designs.
- Integration of PIV solutions.
- Integrate other dept./organization credentials at an event.
- Generate accurate reports quickly for federal reimbursement.

Asset Manager Solution

- Tracks products by grant, department & purchase date.
- Track information on items that require maintenance.
- Generate asset reports for accountability of state and federal grant purchases.
- Associate assets using a parent/child category relationship.
- Use a handheld device for quick & easy inventory tracking.
- Assign assets to people.

ID Badging System

- Multiple security features to choose from.
- Increased durability with virtual edge-to-edge laminates.
- Instantly issue quality IDs within minutes.
- Include color photos, logos & background images on IDs.
- Theft-detrant software and hardware lock system.

Optional Accessories

- SmartReg
- Tethered scanner
- Stationary reader
- Handheld devices
- Triage tags
- Asset tag printer (Asset Manager)
- Wristbands
- Capture solutions
- Webcam
- Label printer

Minimum Requirements

- CPU - P4 2GHz
- Microsoft XP or Windows 7 Pro 32 bit
- 2 GB Ram
- 10 GB free hard drive space
- Adobe Reader 7.0 (free version)
- Clean power
